RE: The use of synthetic materials in the manufacture of Nature's Nectar Nitrogen 5-0-0 and Phosphorus 0-3-0

Our products, Nature's Nectar 5-0-0 and Nature's Nectar Phosphorus 0-3-0, are currently Certified Organic by Ecocert. These products contain no synthetic ingredients or materials. All materials and ingredients used in their manufacture are derived from organically certified and natural sources. At all times during the manufacturing process, steps are taken to ensure no materials or ingredients are contaminated by non-organic or synthetic material.

If you have any questions or require any more information regarding our products, please don't hesitate to contact myself or Nick Kanellos (nick@ez-gro.com, 613-384-8882 x3).

Thank you,

Taylor Pearce
Project Coordinator
