

Granular fertilizers

Turf Pride

The complete Turf Pride line of granular fertilizers allow for flexibility and customization when it comes to building a fertilization program to meet your needs.

Our blends are specifically designed to provide great performance in our local environment and turf.

Ask your Plant Products representative to help prepare your Turf Pride granular fertilizer program.

Turf Pride Spread or Spray Retention

RETENTION™ is a specially formulated stabilized nitrogen fertilizer for the professional turf market. Its unique design ensures nitrogen applications are delivered to the turf and reduces the risk of nitrogen loss by protecting nitrogen longer, extending the window for plant uptake. 25 kg | 580222 | [Details...](#)

Turf Pride 34-0-9 Multicote®

A «one and done» blend for Quality Turf containing 100% Multicote® Controlled Release Nitrogen.

- 34-0-9 provides an efficient use of Nitrogen, better for your plants and the environment.

75% Poly S Balanced feeding of 3 macro nutrients for healthy turf, ideal for tees, fairways and rough

- Nitrogen release based on soil temperature for increased efficiency

25 kg | 580186 | [Details...](#)

Turf Pride technologies

Turf Pride MU-CRN

Turf Pride MU-CRN is selected to provide an optimum balanced response for up to 16 weeks. Released through microbial activity, MU-CRN not only feeds turf when it requires nitrogen the most, it also releases energy rich carbon for an enhanced response.

Turf Pride SAAS

Turf Pride SAAS (slow acting ammonium sulphate) combines the benefits of fast acting, color producing ammonium sulphate with the proven slow release advantages of MU-CRN. Safe to use, and predictable response will provide, long lasting colour, health and growth.

Turf Pride Poly-S

High quality long-term polymer coated urea product providing sustained feeding for a 12-16 weeks. Predictable release determined through soil temperature

Turf Pride Poly-SCU

Durable and efficient polymer coated sulphur coated urea providing an 8-10 weeks response.

ProScape 32-0-6

30% MESA A premium fertilizer providing brilliant turf color from MESA®. Ideal for situation where zero phosphorus is desired. 22.7 kg | 580025 | [Details...](#)

ProScape 25-0-5

51% MESA + 1% Iron ProScape® 25-0-5 is a premier fertilizer utilizing Lebanon's MESA® technology. Zero phosphorus fits well with soils that do not need phosphorus and areas where the use of phosphorus is restricted 22.7 kg | 580000 | [Details...](#)
