

Sulphur 90% Organic

Product Description

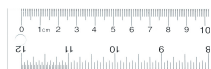

Sulphur 90% Organic is a high analysis granular degradable sulphur product that can be used both as a source of plant nutrient sulphur and/or as a soil amendment for correction of problem alkali soils. Yearly applications of 90% Organic Sulphur will improve soil sulphur levels as well as loss associated with nutrients that are soluble. Sulphur 90% Organic is a unique, high analysis sulphur fertilizer that delivers agronomically and economically, and provides excellent handling characteristics

Chemical Analysis
