TWINE**

PLANTPRODUCTS

HORTICOR® PP HortiTwine

Produced with 100% virgin polypropylene

Hortikor® PP HortiTwine is a premium brand of horticultural twine.

It's UV protection and high resistance to breaking makes it an excellent greenhouse pepper twine. Smooth and soft for easy user handling, proven to work very well with most twine cutting machines.

The softness also helps prevent damage to plants during crop growth.

Features & Benefits

- High UV resistance
- Soft and easy to handle
- Excellent performance
- Can be used for 1 growing season (1 year maximum)
- High breaking strength
- Easy tying, good knot strength
